

Warriors, Greetings!

For some time, Enlisted Proponent has talked about Army Career Tracker (ACT) which is a facet of Army Learning Concept 2015. ACT is a leadership development tool that integrates training and education into one personalized, easy-to-use website. Users can search multiple Army education and training resources, monitor their career development, and receive personalized advice from their leadership.

On 13 June 2011, Enlisted Soldiers assigned to CMF 88 will have an ability to access ACT. We are excited about this and look forward to working with Soldiers in our formation to ensure that each is equipped to become full users of this tool. In conjunction with ACT release, there is also training for all ACT users that will facilitate use.

Access to self-training for Enlisted Soldier User (Private to Command Sergeant Major) and Leader Mentor User (Specialist to Command Sergeant Major) Training that will educate and train users on ACT system functionality is available now. The direct link to both levels of User Training, additional simulations, and more ACT information is found at URL

<https://www.us.army.mil/suite/page/601000>

Only accessible through AKO; access through the link above...once the link is accessed the user will see on the left panel a link "Downloadable Files"...access this link. Once here, see under the bold black font heading "Training." Access both Enlisted Soldier User Training and Enlisted Soldier Leader/Mentor Training.

The Enlisted Proponent seeks your assistance in ensuring all 88s in your formation or otherwise know of this TRADOC endeavor.

Questions concerning training or ACT is obtained at email actnow@us.army.mil

Respectfully,

Office of Chief of Transportation
